Summary

Software Development and Quality student at *Universidad del Norte Santo Tomás de Aquino*, focusing on web development, programming, and good coding practices.

I am proficient in technologies such as **HTML5**, **CSS3**, **JavaScript**, **React**, **Bootstrap**, **TailwindCSS**, **Vite**, **Git**, and **Figma**, which I have applied to personal and academic projects.

I have experience working with **agile methodologies** *(SCRUM)*, fostering communication, organization, and effective team collaboration.

I am motivated by problem-solving and creating functional, scalable, and attractively designed solutions.

I seek opportunities to continue learning, add value to technology teams, and take on real challenges that drive my professional growth.

Experience

Personal Projects — 2024-04-01 | Present
Frontend Developer
🔗 Profile GitHub

Development of functional interfaces, APIs and reusable components.

Miluna Accesorios — 2022-08-12 | 2023-03-10
Seller
- Customer Service
- Clothing and Accessories Sales
- Stock and Inventory Management

Emprendimiento Académico — 2022-03-20 | 2022-11-01
Sale of Biodegradable Pots
School Project: Selling Biodegradable Pots
- Sales Role
- Teamwork
- Product Presentation

Education

Universidad Del Norte Santo Tomás De Aquino — 2024-03-11 | Present
